INVITATION

<https://www.knf.vu.lt/dokumentai/failai/projektai/E3.pdf>

We are delighted to invite businesses, civil society and adult education sectors, students, academics, teachers, to take part to the event “**Innovative learning toolkit for transversal skills development**”, organized through the ERASMUS+ project 2020-1-RO01-KA203-080019 – “*Transnational cooperation initiative fostering developing forward thinking skills of students, teachers and workforce in sustainability-relevant sectors posed by Business 4.0 trends through innovation in Business& Engineering education and training*”, “SMART skills 4.0”.

The 3rd Multiplier Event, jointly organized by the Kaunas Faculty – Vilnius University and University Politehnica of Bucharest targets to the HE students and teachers and practitioners from sustainability-relevant sectors.

The event organized by in Kaunas, Lithuania aims to drive positive changes in teaching and learning by making the most of different digital development foci and sustainability-related issues needed to meet complex demands of new Business 4.0 trends. It entails knowledge exchange and dissemination of the cross-disciplinary learning materials to initiate and grow new Business 4.0 and fertilizes various local stakeholders with insights gathered from the testing phase of Educational Initiative.

Objective is to dissemination results from of project partners activities and find new solutions:

- The event aims to mobilize the genuine mixt of knowledge, skills, and attitudes to capacitate the learners thinking;
- To make connection between different digital development foci (plural of focus) and sustainability-related issues needed to meet complex demands of new Business 4.0;
- To facilitate the innovation in business & engineering education and training by developing the reliable skills intelligence for students, teachers and practitioners.

The event will take place on **24 November 2022**, between 9.00–16.00, Room 610, Building III, in Vytautas Magnus University Agriculture Academy / Lithuania.
